---

***This is provided as information, and no resolution is required. Council may make a motion to direct staff to take particular action if they wish.***

The Active Transportation Plan consulting team has prepared a draft cycle network map (Attachment A).

Staff would like Council input into the routes and types of facilities (bike lanes).

The draft map was also circulated to City managers for input, and suggested revisions incorporated into the design.

Once the draft map is revised based on Council and staff feedback, public input will be sought on any potential additional revisions.

The final cycle network map will be incorporated into the Active Transportation Plan.
