

Attn: Don McArthur, Planning & Development Services Manager

As residents of Collettsville, we are opposed to the changes to the Zoning of the said property. We are opposed to another mobile home park as there are already enough in the City of Merritt.

More to the point is the concern for adequate city services for the project even with the present zoning.

An increase in the amount of residences to the property would put a huge burden on the often implemented summer water restrictions.

Properties are often purchased in Collettsville because it is a Low to Medium residential area. We welcome new development but City infrastructure is barely taking care of what we have let alone an increase of almost double residences to the proposed rezoning.

Tom & Joan Miller - 1301 Fir Avenue

Jack Mills - 2078 Birch Avenue

Jakie & Graham Smith - 335 Logan Lane
